Professional Summary

With a background in environmental and industrial design, I bring curiosity and a thoughtful, research-led approach to making things intuitive and fun to use. My work spans home appliances, mobile apps, and consumer electronics, with a particular interest in circular design and sustainable materials. Away from design, you'll find me hiking, mountain biking, or experimenting in the kitchen.

Work Experience

Member of People Team / Stealth Startup

December 2024 - Present San Francisco, CA

Industrial Design Intern / Mellow Designs

June 2024 - May 2025 Copenhagen, DK

Researched circular design principles and sustainable materials to develop products with a positive environmental impact.

Graphic Designer / WeandBold

June 2020 - June 2023 Denver, CO

Led projects with clients and design teams, translating user research into brand identities, guidelines, and interactive prototypes.

Student Assistant / CU Boulder ENVD

August 2019 - June 2020 Boulder, CO

Coordinated PDSC events, created promotional graphics, and supported scheduling, office organization, and website updates.
